RAILING

METALWORKS EXCALIBUR[®]

STEEL RAILING

Welded steel strength meets timeless style with time-saving installation, durable performance, and horizontal or vertical infill options.

Easy Install

Factory-welded, fully assembled panels.

Time Savings

Pre-attached brackets on posts make level installation easy.

Durable

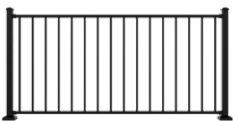

Premium powder coating provides maximum durability.

METALWORKS EXCALIBUR®

For unmatched strength, style and performance, our steel railing rises beautifully to the challenge. Sleek lines with a premium powder coating offer maximum durability, with installation accelerated by factory-welded panels and posts with pre-attached brackets.

- Contemporary, open views with vertical or horizontal infills
- Factory-welded, fully assembled panels
- Premium powder coating maximizes durability
- Pre-attached post brackets ensure level installation and consistent bottom spacing
- Matching gate kits and compatible lighting is available
- Infill options include square balusters and Latitudes round horizontal rods
- Panels with square balusters are factory welded - no assembly required
- Deck Top brackets available to create a "cocktail rail" (sold separately)
- Concealed brackets provide a clean finished look
- Designed to meet national residential (IRC) and commercial (IBC) codes*
**Consult local regulations for specific requirements*
- 15-year Limited Warranty
