

Care and Maintenance

Pergola

On occasion you may want to spray your Pergola with a garden hose. This will remove grass clippings, dirt and fertilizer chemicals, etc. and keep it looking as new as possible.

For light cleaning, rinse with water from bottom to top and back to bottom. This will clean the surface on the way up and prevent the collection of dirty "run down" and possible streaking. Air dry or wipe with a soft, lint free cloth. For more soiled areas, rinse the surface with clean water from top to bottom. Use a sponge and clean with a solution of mild dish soap and water. Immediately rinse any "run down" to lower parts of the structure. Do not allow dish soap to collect or "puddle" on surfaces. Immediately rinse entire section with clean water. It is very important the dish soap does not dry on the surface. Air or wipe dry with a soft, lint free cloth. For stubborn, water-soluble debris, repeat steps above until clean. In Coastal areas, it is recommended that you frequently spray with water to reduce accumulations of salt and dirt.
